

AN UNLIMITED STOCK GIVES THE BUYER AN UNLIMITED CHOICE

HOWEVER common place this statement sounds, it is worth your consideration. When you are shopping you have an idea of what you want to buy. Suppose you go to a store whose stock is limited, it may be a showy stock but it is a shallow stock, being deficient in variety of goods and prices. The salesman knows his stock is limited, he knows that you want what you want, and what you don't want if he hasn't got it. He goes to work artfully, tries a line or two as a "feeler," finds out what you want, and he tells you, but something you don't want until you are at home again with your purchase.

DON'T BLAME THE MAN,

MISS IRWIN HAS CHARGE OF THIS DEPARTMENT.
GEO. RITCHIE & CO.,
BELLEVILLE.

The Bishop of Ontario has been seriously ill at Ottawa.
A smart message boy wanted at Tint Tint office.
Now is the time for people to read the advertising columns of THE TRIBUNE.
Mr. G. W. Wright has sold his building lot on Mill street to Mr. John Dalton for \$600.
A kind friend recently presented Mr. E. Whitney of the Empress with a handsome rifle.
Late hours tell on a man, but he doesn't expect to care as long as they don't tell his wife.
Contractor Cole has made rapid progress with the excavation work at the new McCullough Block on St. George street.
Mr. E. Cole will move his temporary parlour into the new store in the east end of the Oliver Block in the course of a few days.
Capt. Thos. Donnelly and son have taken the contract for raising the tug Mary recently sunk by a collision with the tug Kothony.
Messrs. Rathbun & Blake, of Bay View Ranch, purchased two dozen thoroughbred Yorkshire hogs at the Toronto Exhibition.
The people should be careful with their openings. Some windows are reported broken and the Chief is keeping his weather eye open.
Mr. John Leng, Gladstonian, has been elected by acclamation to fill the vacancy in the great manufacturing city of Dundee, Scotland.
The repairs on locomotive No. 7, have been completed and it has been despatched to assist at construction work on the N. T. & Q. Railway.
Jas. Rutten, of Brewers Mill, had his arm severely shattered by the accidental discharge of his fowling piece as he was at the mill.
The Citizens Band turned out on Wednesday evening, at the residence of Mr. and Mrs. P. J. Wims at their residence on Mill street. The courtesy of the Band were suitably recognized on the occasion.
The letter of our Aurora correspondent is interesting in this week being replete with facts which should stimulate the ladies of Deseronto and other Canadian towns to increased zeal in the cause of charity and public morals.
Mr. John Charlton, M. P., addressed a large meeting at Belleville on Tuesday evening on the Jesuit Estates Act. The meeting was under the auspices of the Equal Rights Association of Belleville who are holding a series of such meetings during the winter.
Mr. McCullough will complete the mason work on his new block and have it closed in before winter. The interior will be completed during the winter months. It will be three stories high and undoubtedly one of the best business stores in Deseronto.
Mr. W. C. B. Rathbun, of Bay View Ranch, has purchased from Mr. T. Butler 152 acres of land on the Napanee road, being part of the Stevenson property acquired by Mr. Butler two years ago. It is situated directly north of the Deseronto Cemetery.
A large party of French Canadians arrived last Friday on the early morning express from the east. During their long wait at the junction they passed the time in a convivial manner, singing patriotic songs with excellent "break downs." They go to work for the Rathbun Company.
Several of the blocks recently erected have been badly marred in appearance and greatly injured in business value by being built at such a height above the boardwalk as to necessitate a flight of stairs to get into the shops. It would pay all parties to consult an architect before commencing to build.
Mr. Ricketts, of the Chemical Works, threatens to put in a little bill to the corporation for discharging the low tide water south east wind blows. His prodigious fumes are death to bacteria, microbes and all such allies of our resident physicians. No wonder that Egar and McAlley cough as they sneeze his way.
The morning mixed trains on the G. T. R. from the west are never on time now, and commercial men complain that when they arrive at Deseronto Junction, the B. of Q. train is so long in starting that it is impossible for them to get through their business in time to catch the midday express. Can not this state of things be remedied?
We direct the attention of all our readers to the change of advt. made this week by the Misses Evans, St. George street. The ladies have imported a stock of new goods which afford an unlimited choice from which to make a selection. The ladies will find themselves more than repaid for a visit to their neat shop on St. George street.
One of the collectors missed a whole section of the pews in one of the town churches last Sunday morning, and worshippers were debarred from placing their customary offerings on the plate. It is thought that he is intending to run for the town council and that he took the dodge to popularize himself with the masses.
The French elections resulted favourably to the government and show that the people of France are growing more strongly attached to the Republican form of government. Rouler and the monarchists have been given their quietus, let us hope for all time. The result must have a great effect on Europe and tend to decrease the strength of absolutism in Germany, Russia and other countries.
We learn that a robbery has been committed from the premises of Mr. John D. Ellis of Thomas street. A racial got into his stable in the night and stole a quantity of harness, the property of Mr. James Dryden. As there is unusually strong suspicion against the stable boy, his arrest is only a question of time, for he no doubt he will have a sufficiently long term of imprisonment secured him, to allow him to meditate on his ways.
A fearful calamity befell Quebec on Thursday last week, when a huge mass of rock became detached from Cap. Diamond and rolling down demolished a number of houses on Champlain street. The inmates were in many instances crushed to death, 49 lives being lost. Others were rescued with much difficulty, one old man, Kemp, being got out after 150 hours after the accident. He died however, the next day. It is feared that another portion of the cliff will fall as it presents a threatening appearance.
Everything points to a very successful fair at Shanawana this year. The date is Tuesday, Oct. 26th. The directors of the Deseronto Agricultural Society are making every effort to make the exhibition a success. The premium list is large and includes many valuable prizes. There will be horse-pulling and other attractions, and we predict the largest attendance ever seen at a fair in Shanawana. The weather is everything that could be desired for the fair. Apply to A. Macfarlane, Secy, Milroy P.O.

Mrs. R. J. Craig, of the Manse, had her hand severely crushed the other day by the sudden fall of a window sash.
Mr. George Stewart, of the Deseronto House, cut his hand quite severely on Wednesday while engaged in carving a bottle of catnip.
Mrs. W. B. Phelps, of Oswego, mother of Mrs. Chas. Bond of this city, died on the 24th inst. Her husband was one of the pioneers of Oswego and was long connected with the D. L. & W. Railway.
The Indians of the Reserve are discussing the propriety of securing a block of five or ten thousand acres of land in the Northwest territories for members of their band who may desire more land for farming purposes.
Barley. The schr. Storrs has been loading with barley at Baker's dock. Barley is now coming in more freely to this market. All the newspapers are urging upon farmers the duty of marketing their grain at once, as the Western barley is bright and is coming in freely, and once it gets in, there is little chance of its being sold in the United States markets. The farmers should take this fact into consideration.
Military Opening. Mr. W. W. Martin holds his fall military drill on Saturday, Sept. 23rd, and all the officers of Deseronto and vicinity are invited to attend. Miss Wartin has personally selected all her troops in the leading houses of Deseronto and will make an exhibit this year far exceeding those of former seasons. She will show a large assortment of hats and patterns bonnets for the fall season in all the leading styles. A visit to her room on St. George street will show many attractions.
Orange Picnic. The members of Mohawk Lodge, No. 99, Peter Claus, W. M., held their annual picnic last Tuesday on the west end of Eagle Hill. There was a good attendance of the brethren who enjoyed the day very much. At different games, including quoits, etc. Five drums and several lively fife contrabass bands were present. The brethren were offered at the action of some who refused to open their baskets and went away as if they felt themselves better than others.

Announcement. In accordance with the method now adopted by all the newspapers of the district, we beg to announce that in future all notices of meetings or events held under the auspices of churches, societies, etc., at which admission fee is charged or whose object is to make money, will be only inserted in THE TRIBUNE at the usual rate of 5 cents per line. When posters, circulars, etc., are printed at this office, the rate for reading notices will be three cents per line. No notice inserted for less than twenty five cents.
Cricket Match. Messrs. W. A. Macleod and J. F. Stokes, as members of the Napanee Cricket Club, went down to Kingston on Wednesday to play the team of the Royal Military College. The Napanee Club was victorious by 30 runs. Macleod made the best batting of the day, having succeeded in rolling up a score of 100 runs. Stokes followed him closely, making 85 runs. The game was exceedingly brilliant. Stokes made 4 runs in the first and 5 in the second innings. Napanee made 100 runs in the first and 85 in the second. Macleod and Stokes have been a tower of strength to the Napanee Club this season.

THE SINGER'S ALMS.

[AN INCIDENT IN THE LIFE OF THE GREAT TROUBADOUR, MARCO.]

In Lyons, on the march of that French town, Years since, a woman leaning on a child, Craved a small alms of one who, walking down The thoroughfare, caught the child's glance and smiled To see, behind its eyes, a noble soul; He paused, but found he had no coin to dole.

His guardian angel warned him not to lose This chance of pearl to do another good; So, as he waited, pearly there stood, And with his hat held, as by limb the neck, He covered his kind face and sung his best. The sky was blue above, and all the land Of commerce, where the singer stood, was tiled.

And many paused, and, listening, paused again To hear the voice that thronged and thronged them thrilled. I think the guardian angel helped along That cry for pity women in a song.

The hat of its stamped brood was emptied soon Into the woman's lap, who, drenched with tears, Her kiss upon the hand of help; 'twas noon, And noon in her glad heart drove forth her fears.

The singer, pleased, passed on and softly thought, "Men will not know by whom this deed was wrought." But when at night he came upon the stage, Cheer after cheer went up from that wide throng, And flowers rained on him; naught could assuage The tumult of the welcome save the song That he had sweetly sung, with covered face, For the two beggars in the throng.

—Henry Abbey.

HINTS FOR THE FALL.

Late Crops.—Many farmers think that August and September are the proper months to sow rye. Sown at these times it gives promise for coming in the fall. If sowing has been neglected, it is regarded by some farmers as an advantage to sow rye in the fall, even as late as November, or so late that the ground can be worked. The grain sown this late does not sprout in the fall, but starts very early in spring, and the crop is much earlier than from any spring-sown seed.

Repairs to Farm Buildings.—Do not wait until cold storms point out where repairs are needed. Make them at the first opportunity, and if an opportunity does not occur soon, make one. A large share of the food of an animal is expended in producing heat. If we keep the animal warm by other means, the food goes toward fattening it.

Shelter in Pasture.—We have often urged the need, in a stormy winter, of some shelter for the animals protection from the excessive heat of the sun. If this shelter be of a more permanent character, with roof and sides, it will break the force of a driving storm. The cold storms at this season are especially injurious to young animals.

Horses should come into winter quarters in good condition, and should have extra food. Many continue to turn out their horses until much later than when one cold, stormy night can cause them much discomfort, when caught out in a driving storm. As soon as they come home run them dry, and blanket, giving some extra feed.

Cows require care to prevent them from falling off in the quality or quantity of their milk. Beans, groundnuts, and cottonseed meal are among the kinds of food that increase the quality of milk.

Pigs should be kept in growing condition and fattened early. City buyers like small pork.

Winter Apples.—Many fruit growers find, when their orchards come into bearing, that they have planted too many varieties, which ripen at the same time. It is a mistake to set many new varieties in an orchard planted for profit. There are some well-known marketable kinds. An experimental planting should be done on a small scale. A large number of kinds, ripening at the same period, will result in having some extra feed. At first there will not be enough of some kinds to fill a barrel; two kinds should never be mixed in one barrel, and these fruits must be of a fruit affects the taste. We may have varieties of the color, red, yellow and green. The retailer knows that the color of a fruit affects its sale, and these points should be born in mind, and these have an influence upon the ultimate success of the orchard. In gathering apples, pick and handle them gently.

SEBASTIAN GOMEZ, THE PAINTER.

Sebastian Gomez was a mulatto boy, employed in the studio of Murillo, the great Spanish painter. He and his father were both slaves. He slept in the studio nights, and after all others were gone, painted wonderful pictures of the Virgin was found one morning, at sight of which Murillo was lost in admiration, but who knew by whom it was done. No one suspected the slave mulatto boy. One night Sebastian became so entranced with his painting, that he continued until morning, when Murillo entered the studio and found him at work. Murillo, entranced with the picture, promised the slave boy whatever he would ask. The slave boy asked the freedom of his father. At these words Sebastian uttered a cry of joy, and raising his eyes to his master said: "The freedom of my father! the freedom of my father!"

"And this alone," said Murillo, who, no longer able to conceal his emotion, threw his arms around Sebastian, and pressed him to his breast.

"Your pencil," he continued, "show that you have talent; your request proves that you have heart. From this day consider your father not only my pupil, but as my son. I have done more than paint—I have made a painter."

Murillo kept his word, and Sebastian Gomez, better known under the name of the mulatto of Murillo, became one of the most celebrated painters in Spain. There may yet be seen in the church of Seville the celebrated picture which he had been found painting by his master; also a St. Anne, admirably done by a holy Joseph, which is extremely beautiful; and others of the highest merit.

WHAT WOMEN HAVE DONE.

To The Editor of The Tribune.

As the founder of Deseronto was an Auburnian and your worthy mayor was a native of our city also, I have from this circumstance ventured to occupy a little space in your columns with matters of a local character pertaining to Auburn. In this letter I will endeavor to give you readers as briefly as possible a little idea of what the women of our city are doing for "Sweet Society's Sale." Small quantities can gain from larger ones ideas of practical importance for their own adoption as they advance in their efforts to occupy a position of respectability in the community. Although not claiming for Auburn such perfection as offering her as a model for the emulation of other cities, I nevertheless wish to make a matter of sympathy for poverty and human suffering is entitled through the instrumentality of her many noble women to an honour that many of our towns might envy.

The following from the most important of Auburn's charitable organizations which have been mainly the result of woman's work. One of the most useful of these efforts is the valuable facility in the Cayuga County Orphan Asylum. This institution with its fine grounds, extensive and substantial edifices, is maintained in every respect for the comfort of its twenty-six children is hardly excelled in Western New York, the value of this property reaching up to many thousands. It is in importance may be considered the Home for the Friendless, an institution for destitute old ladies; this orphan asylum is well provided for in the possession of a good building with all the modern improvements to be found in our best dwellings and surrounded by ample grounds. It averages about twenty beneficiaries so to the thought full care of our women the two extremes of human life youth and old age, have comfortable homes provided for them.

The "Woman's Industrial and Educational Union" is an American for-profit-making of working girls, mainly those employed in our factories of which our city has a large number. The advantages of this society are enjoyed mostly in the long winter evenings when this class is at leisure. No labor is spared for the moral and intellectual improvement of those who wish to avail themselves of its privileges; it has a good library and instruction is given gratuitously in penmanship and other branches that may be desired. Education, recreation, amusements of an instructive nature form an important feature of the society. These charitable efforts have been highly appreciated by those it was designed to benefit.

Then we have the Woman's Employment Society composed wholly of unmarried ladies. They procure material and give out garments to the poor and deserving employment at remunerative prices. In cases in which needed the garments may be returned. This work involves a considerable expenditure of time, money and labor for those engaged in its management.

The Young Ladies Benevolent Association has accomplished a most good service in the way as any form of charity we have. This society has a very systematic arrangement. The city is districted off and committees assigned to each district. Each committee has an oversight over the sick poor of its own territory; comforts and delicacies are generously provided, flowers so grateful to the sick are furnished and these young ladies have gone like ministering angels with willing hearts into the haunts of equal and wretchedness. The "Martha Washington Society" is one of the oldest and most useful organizations we have. This society meets weekly during the winter months and furnishes supplies of food and clothing to the needy. In addition, this society distributes second hand garments. Then for the purpose of raising the standard of morals there are in our city various societies which meet weekly and make a tax on the time and attention of the ladies. Among these are the "Woman's Temperance Society" which enjoys a vigorous activity. It has the honor this year of having the State Temperance Convention held here in expected a representation of four or five hundred women from the different portions of New York state and these there is the Anti-Slavery Society for political education; the female Bible society to supply bibles to families; the Christian Alliance, which works through supervised by men is entrusted to the women of a monthly house to house visiting to ascertain the spiritual necessities of each family and induce as far as possible church attendance. And then there is our "City Hospital" which was established by a bequest of the late James Seymour, its maintenance being supported by the ladies of the city. It is a large measure this portion of the work which has taxed their energies more to meet its necessities than any of the institutions organized by themselves, the management of this excellent charity mainly devolving on the women. Our churches besides furnish ample of a table work for their female members who have societies for this object. To enumerate all their duties would be an endless task. Industrial schools have been established in some of our churches and regarded as an extremely useful work instructing poor children (whose mothers are too much occupied to do it themselves) how to sew and to make and mend their own garments. The Romanists have quite a fine institution for children conducted by their order of sisters about which I cannot give you details in information.

When it is borne in mind that Auburn is not a large city numbering less than thirty thousand inhabitants, I think the Editor of the Tribune and the readers will admit that this is a pretty excellent exhibition of what has been accomplished in our city for the noble road through the exertions and influence of her women. HAIR DRESSING.

It is had for a woman to soak her hair with water, wash it with soap, yet she may do it with impunity and even with benefit, if she pursues the proper after-treatment. The daily washing of the hair with soap is a bad habit, as it dries the hair, and unless the hair is well dried before it is combed up it will become sour, much to its injury. The hair should be washed with water, and then with a little vinegar or lemon juice. The hair should be dried with a towel, and then with a brush. The hair should be combed with a brush, and then with a comb. The hair should be washed with water, and then with a little vinegar or lemon juice. BELL PIANOS & ORGANS.

MISSISSAUGA, W. BELL & Co.,
Guelph, Ont.
The Bell Piano is in use at the Toronto College and is the only piano in the world that has been used by the great masters of music. Its tone, touch, and general finish being excellent.
(Signed) F. H. THOMPSON,
Director, Toronto College of Music.

BELLEVILLE, Feb. 20th., 1889.
H. BULL, Esq.,
Dear Sir:—The Bell Piano which I bought from you a few months ago continues to give great satisfaction. Its depth of tone, and power, its brilliancy and sweetness make it always a delight to play upon. There is that peculiar "singing" tone in its chords which produces a lovely effect. As regards the mechanical work and finish of the case and action, it is perfect. I have never seen a Canadian Piano and very few American ones, which would at all compare in my estimation with the "Bell Piano." My opinion of that Piano, however, is shown by the fact that I have selected it in my preference to all others on my own list and pleasure.

I am Sir,
Yours truly,
D. F. BOGART,
Rector of St. John's Church.

"I HEARTILY RECOMMEND PUTNER'S EMULSION FOR ALL SUFFERING FROM AFFECTIONS OF THE THROAT AND LUNGS, AND I AM CERTAIN THAT FOR WASTING DISEASES NOTHING SUPERIOR CAN BE OBTAINED."

"I have been suffering from Pulmonary Diseases for the last five years. About two years ago during an acute period of my illness I was advised by my physician to try PUTNER'S EMULSION. I did so with the most gratifying results my sufferings were speedily alleviated, my cough diminished, my appetite improved. I added several pounds to my weight in a short time and began to recover in strength. This process continued until life which had been a misery to me became once more a pleasure. Since then Putner's Emulsion has been my only medicine. As one who has fully tested its worth I heartily recommend it to all who are suffering from affections of the Lungs and Throat, and I am certain that for any form of Wasting Diseases nothing superior can be obtained."

LOCAL ITEMS.

Gas mains are being laid out on Dundas street east of S. Mark's Church.

There are twenty-four males and two females confined in the county jail.

The various kinds of the Rathbun Company are at present undergoing repairs.

The Gananoque Reporter doubts if horse races added to the financial success of fall fairs.

The minor Deseronto has returned to this port after a short season on the Gananoque-Clayton route.

The marshes are now a-days full of boys prowling about fowling pieces in hand ready to shoot at anything with wings.

Mr. Joseph Carwell is now in charge of the mending shed of the asphalt factory which is situated north of the railway track.

The new extension to the asphalt factory which will be used as a storehouse for mending is now being filled with new stock.

The Fall Assizes are being held this week in Belleville, Mr. Justice McMahon presiding. Mr. Wm. Bick, has been in attendance as a grand juror.

Mr. Newton added a province to the Dominion in a few minutes the other day. It would take our best statesmen two or three years to accomplish such a task.

Mr. John Barnes, the London laborer who engineered the drink, is a pious man who would not imitate his example.

The churches are making a painstaking effort to improve the moral portion of their services. This can only be done by constant practice and regular attendance on the part of churchgoers.

The Deseronto Cemetery Company are erecting a large greenhouse adjoining the caretaker's lodge at the cemetery. Supt. Langton will thus be able to have a large assortment of choice flowers always on hand.

During the past few months there has been an exodus from the Grand Trunk office in Belleville. No less than five clerks have left for the United States. The exodus from Canada to the United States has been unprecedentedly large this year.

Mr. Thos. Hinchey has purchased a lot on Mill street immediately opposite the residence of Mr. G. E. Clement. He has given the contract for the erection of a residence on half of the lot to Mr. George Clement, and work has already been commenced.

The Trenton Advocate wants to know where we got our information that building lots can be obtained in Trenton from \$100 to \$200 each. If the obnoxious editor look in his own columns he will find that Mr. H. O'Rourke offers to sell twenty town lots from \$100 to \$125.

There was almost a conflagration at the public school last week, the heat in the stove pipes in one section having caught fire. The pipes became red-hot and fell. Happily, —or rather unhappily— the flames were extinguished and the unsightly structure still crumbles.

Hon. Wilfred Laurier, the talented leader of the opposition in the house of commons, will address a public meeting in the opera house, Belleville, on the evening of Wednesday, Oct. 9th. Many will be eager to hear this great orator on this occasion, his first visit to the Bay district.

Eight or ten head of cattle belonging to residents of the town broke out of their pastures the other evening and made their way into Mr. Wm. McKee's garden where they devastated his cabbage patch. They were impounded and their owners compelled to pay a respectable sum of damages.

There are now four sunken vessels in the St. Lawrence river: the Victory opposite Alexandria Bay Park; the Armstrong opposite Prescott; and the Rothway and Myra between Brockville and Prescott. The Rothway has been abandoned by her owners and turned over to the insurance companies.

After rain a pool of water forms on the crossing over Edmond street adjoining McCollough clock. This crossing, owing to its proximity to the market, is much used by ladies find this lake a great inconvenience.

Two or three hours work by Commissioner Marriana would abate this unpleasant nuisance.

Eight years ago Tacoma, Washington Territory, had 720 people; to-day it is a city of 90,000. When we consider that in the time four or five cities and a dozen large towns have sprung into existence in that territory, impudence fills our souls at the paucity of immigration into the Canadian Northwest.

From a copy of the *Sentinel* of Pilot Mound, Manitoba, we observe that a meeting of school teachers was held at Cartwright for the purpose of forming a teachers' association. The meeting was well patronized by the lady teachers of the district. The first convention will be held to-morrow.

Mr. E. Coleman, formerly of Deseronto, was appointed secretary.

Mr. H. B. Dryden, formerly of this office, favours us with a copy of the exhibition number of the *York Tribune* published at the town of West Toronto Junction. It claims that the town of West Toronto Junction is the most progressive town in the Dominion. Six years ago it was a race course and a wretched hamlet. To-day it has a population of 25,000 and an assessed value of \$2,714,000.

A marked improvement is said to have already taken place in the *English press* since the establishment of the London edition of the *New York Herald*. The different newspapers are becoming more alert in collecting news and now impart it to their readers in a more lively and natural manner. The long and somewhat editorial is also giving place to the crisp, pointed paragraph.

Cure for dandruff: Take borax, half a teaspoonful; common sulphur, one heaping teaspoonful; pour over this one pint of boiling water. When cool pour into a bottle; agitate frequently for three or four days, then strain. Moisten the scalp thoroughly with water two or three times a week. It is one of the most, if not the most, reliable preparations known for permanently removing dandruff.

Mr. Wright Duryea, President of the Glenora Ship Company, died at his residence, Glen Cove, Long Island, N. Y., on the 18th inst. The deceased gentleman was an intimate personal friend of the late H. A Hint to Capitalists.

There is an excellent opening in Deseronto for a factory which would manufacture some sine requiring the employment of female labour. Such a factory would prove a boon to the town and be moreover a profitable investment. Could not a joint stock company be formed to enter at once on such a scheme?

Mr. George Burtch leaves in a day or two to take the position of manager of Gisborne's Hotel, Gisborne, Ont. Mr. Burtch will go to the hotel to fill the duties of agent for the same company, the largest of the kind on this continent. The company will start from Deseronto in all the cities on the route to San Francisco and return. Mr. Burtch will return to Deseronto early in the spring to examine his own company on a larger scale for another Canadian tour next summer.

On Sunday evening Capt. John Gale, of the local corps of the Salvation Army will hold a farewell meeting. He will leave Deseronto on Thursday to take charge of another post. There will be special services not only on Sunday evening but on the following evenings until his departure. Capt. Perkins will assist and enthusiastic meetings are expected. All are cordially invited. Capt. Gale has proved a very capable officer and all classes in Deseronto will regret his departure.

Chief Amosookah arrived home from his European tour on Tuesday afternoon. His engagement with the Colonial and Continental Church Society, of London, England, closed on the 14th inst., and on that day he sailed from London on the steamer Alaska, arriving at New York on Sunday 22nd.

He was about twelve months and twenty days. His mission proved a great success. His efforts on behalf of the interests of the Society have been greatly appreciated and rewarded with great results. The Society are deeply gratified and the Chief himself expresses himself delighted with the kind reception everywhere accorded him by the people of the mother country. Chief Amosookah collected \$17,000 for the Society during his tour, the collections sometimes amounting to \$100 in an evening. The Chief looks well after his hard work. He expresses himself surprised at the changes that have been effected in Deseronto during the past year and the evidence of growth everywhere visible.

Chief Amosookah arrived home from his European tour on Tuesday afternoon. His engagement with the Colonial and Continental Church Society, of London, England, closed on the 14th inst., and on that day he sailed from London on the steamer Alaska, arriving at New York on Sunday 22nd.

He was about twelve months and twenty days. His mission proved a great success. His efforts on behalf of the interests of the Society have been greatly appreciated and rewarded with great results. The Society are deeply gratified and the Chief himself expresses himself delighted with the kind reception everywhere accorded him by the people of the mother country. Chief Amosookah collected \$17,000 for the Society during his tour, the collections sometimes amounting to \$100 in an evening. The Chief looks well after his hard work. He expresses himself surprised at the changes that have been effected in Deseronto during the past year and the evidence of growth everywhere visible.
